Hazardous Waste Restriction Form Land Disposal Treatment Required

This is to notify you, pursuant to 40 CFR 268.7(a)(1), that the waste(s) listed below, shipped are subject to land disposal restriction specified in 40 CFR 268 and will require further treatment pursuant to the Hazardous Waste Treatment Standards found in 40 CFR 268, Subpart D. It is your responsibility to assure management of these wastes in compliance with all applicable conditions and restrictions imposed by law and regulation.

Manifest Line Item	Waste Code	Waste Description and Treatment / Regulatory Subcategory	Common Name	Treatability Group (WW or NWW)
9b(1)	D009	Characteristic of toxicity for mercury and contains less than 260 mg/kg (Low Mercury Subcategory)	Mercury	NWW
9b(2)				
9b(3)				
9b(4)				

For deactivated ignitable (D001) and corrosive (D002) wastes and organic toxicity characteristics (D012-D043) waste not managed in a CWA or CWA-equivalent facility: This waste may reasonably be expected to contain the following "underlying constituents" found on the Universal Treatment Standards Table at 40 CFR 268.48:

I believe this waste, and any residues resulting from the management of this waste, may require treatment to meet the applicable standards as set forth in the "Treatment Standards for Hazardous Wastes" in 40 CFR 268, Subpart D, prior to land disposal.

_____ Waste restriction is based on waste analysis, which is attached to this Land Disposal Restriction Form (40 CFR 268.7(b)(4)(iv)).

_____ Waste restriction is based on generator knowledge and supporting data is on file with the generator (40 CFR 268.7(a)(5)).
